

BEEF CATTLE INSTITUTE
KANSAS STATE UNIVERSITY

Translation of Shiga-Toxin *E. Coli*: Mitigation to Field Implementation

Kelly Oliver, Project Coordinator

Translation of STEC Mitigation to Field Implementation

FOCUS: Develop educational training modules for industry personnel to teach proper control and prevention strategies to reduce E. coli contamination in food supply.

Pre-harvest Operations: Feedlot, Cow/Calf, Veal, and Cull Dairy Cows.

Post-harvest Operations: Packing Plants, Restaurants, and Distributors.
